

A COUP IN HAWAII IS NOW EXPECTED

JAPAN SAID TO BE HATCHING BOLD SCHEMES.

Soldiers As Emigrants—Fifteen Hundred Veterans to Be Landed on the Island Ready to Oppose Annexation—Battle Ships Will Also Be Ready to Take Part.

St. Louis, July 28.—A special to the Globe Democrat from Los Angeles, Cal., says:

"A letter written by an intelligent Japanese official in Japan to a former Japanese officer living in this city conveys the information that the Japanese government will forward to Honolulu in the latter part of July 1,500 Japanese emigrants. These individuals are now

PRESIDENT SAMUEL B. DOLE. In the garrison at Neegata, being soldiers in the Japanese service, and will go on shore in Honolulu as simple citizens, but drilled and ready for military duty at once.

"The steamers which are to convey these men have been chartered by the Japanese government, and carry in addition to the 1,500 passengers, arms, ammunition, and military stores of sufficient quantity to make it interesting for any party trying to prevent their landing. In addition three large men-of-war are already prepared to leave Yokohama, to arrive at Honolulu at about the same time as the landing of the so-called emigrants will take place.

"It is declared that the admiral in charge of the British fleet there will find it convenient to order some of his ships to cruise in the vicinity of the Hawaiian islands about that time, and the game of bluff to be played by the Japanese will be backed by British blue jackets if necessary.

"The correspondent, who has been educated in the United States, used the expression, no doubt, acquired when here: 'We will get there, and don't you forget it,' and remarked further: 'I can not write this in my own language, but you understand English predictions conveyed in a previous letter from this official were verified.'"

NOT AFRAID OF JAPAN.

State Department Not Worrying Over Hawaiian Question.

Washington, July 28.—The report from Paris that the visit of Marquis Ito of Japan to Europe is for the purpose of pointing out to Europe the perils of allowing the United States to annex Hawaii, does not worry the state department officials. They do not believe that Japan will carry her protest against annexation so far, or that it would be heeded by European governments, if an appeal were made to them. The United States proposes to annex Hawaii, just as it annexed Texas, when the people sought annexation. There has been no coercion about the proposition to annex Hawaii. It was sought by the present government of that republic. The protests of Japan have been made with the excuse that her treaty rights with Hawaii might be violated, as she claims they have been. But Hawaii offered to submit that question to arbitration, and Japan has accepted this offer.

State's Attorneys Convene.

Bloomington, Ill., July 28.—The first state convention of state's attorneys of Illinois met in this city Tuesday in the Circuit court room. Thirty state's attorneys were present. The convention was called to order by A. G. Phillips of Ford county, temporary chairman. George V. Gillespie of Johnson was elected temporary secretary. The following permanent officers were elected: President, Burnett M. Chipfield of Fulton; vice-presidents, John H. Franklin of Marshall, George V. Gillespie of Johnson, Bert L. Cooper of Kankakee; secretary-treasurer, John Dally, Peoria. Peoria was chosen as the next place of meeting.

Joliet Block Burns.

Joliet, Ill., July 28.—Fire entirely ruined the River block, one of the largest office and store buildings in the city, at 3 o'clock Tuesday morning. The blaze is supposed to have started from spontaneous combustion. The entire loss on building and contents is \$35,000, and much of the loss is not covered by insurance.

Big Crop in Nebraska.

Omaha, Neb., July 28.—New grain has begun to move in Nebraska in enormous quantities. The Burlington carried out of the state 1,300 cars of wheat Monday and 300 cars of corn. The traffic will be the largest in the history of the state.

THE BASEBALL REPORT.

Results of Yesterday's Games Played in the Various Leagues.

After allowing the Reds to tie the score in the eighth inning Chicago won out. Louisville fell behind by dropping a game to Brooklyn, and Boston attended another surprise party at St. Louis. Other games were prevented by rain. Scores:

At Chicago—
Chicago 3 0 0 0 0 0 0 0 1—4
Cincinnati 0 0 0 1 0 0 0 2 0—3
At Louisville—
Brooklyn 0 0 0 0 7 5 0 0 2—14
Louisville 0 0 0 0 1 0 0 0 1—2
At St. Louis—
St. Louis 0 0 0 3 1 1 0 0 *—5
Boston 0 0 0 1 1 0 0 0 0—2
Games to-day: Cincinnati at Chicago, New York at Cleveland, Boston at St. Louis, Philadelphia at Pittsburgh (two games), Brooklyn at Louisville, Washington at Baltimore.

Western League.

At Minneapolis—Minneapolis, 11; Grand Rapids, 5.
At Milwaukee—Milwaukee, 4; Columbus, 3.
At St. Paul—St. Paul, 11; Indianapolis, 10.
At Kansas City—Detroit, 16; Kansas City, 8.

Western Association.

At Burlington—Des Moines, 7; Burlington, 1.
Cedar Rapids—Cedar Rapids, 9; Dubuque, 6.

At Peoria—Rockford, 6; Peoria, 5.
At Keokuk—St. Joseph, 7; Quincy, 6.

Michigan League.

At Saginaw—Flint, 9; Saginaw, 0.

Talk of Mission Work.

Eureka, Ill., July 28.—The Christian Woman's board of missions had complete charge of the program at the Illinois Christian encampment Tuesday. In the morning after devotional services, led by Miss Elmira Dickinson, the reports of state officers were received, showing a satisfactory year's work. The following officers were elected: President, Miss E. J. Dickinson, Eureka; vice-president, Miss Anna M. Hale, Peoria; recording secretary, Mrs. J. C. Davidson, Eureka; corresponding secretary and organizer, Miss Rachel Crawford, Eureka; treasurer, Mrs. C. J. Crawford, Eureka; superintendent of young people's work, Miss Anna Ewing Davidson, Eureka.

Greatest of Trusts.

New York, July 28.—A new form of trust, more comprehensive than the Standard Oil monopoly, and involving a capitalization fully twice as large, is now going through the preliminaries of organization among the American brewers, maltsters and hop growers interested in the English group of brewing properties. The large brewers in the several states are invited to join state combinations in their trade, with the purpose afterward of becoming members of a national brewing company, designed to control the brewed product of the whole country.

Chicago Concern in Trouble.

Chicago, July 28.—With an alleged shortage of \$338,000, bad loans, alleged "dummy" loans for large amounts, and two-thirds of the borrowing shareholders in default on their payments, the affairs of the Mechanics and Trades' Savings, Loan and Building association need a general investigation, according to a bill filed in the Circuit court yesterday. Charges are made that the officers of the association aided the secretary to use the society as a feeder for the latter's business as a builder and contractor.

Indiana Oil Men Happy.

Anderson, Ind., July 28.—Operators who are developing the new Indiana oil field were arrested by State Gas Inspector Leach for alleged criminal waste of gas. At the trial the court ruled that gas allowed to blow off to get oil was not wasted, as it was utilized in raising the oil to the surface. This establishes a precedent for oil fields. Upon orders from Gov. Mount the cases will be taken to the Supreme court at once.

Another Hinshaw Sensation.

LaPorte, Ind., July 28.—The confessions of the two convicts of complicity in the Hinshaw murder, and the charge that Van Tassel fired the shot which killed Mrs. Hinshaw, are now followed by the sensational allegation that Van Tassel recently wrote a letter in which he confessed the murder of Mrs. Hinshaw, his statements bearing out in every essential detail the confessions of Baney and the other convict.

McKinley's Vacation Plans.

Washington, July 28.—The Presidential party left here today for the vacation on the shores of Lake Champlain. It is stated at the white house that all papers sent to the President at his summer home will be mailed to Washington without being opened. The President, it is said, will look over no papers while he is away, and whatever appointments are made will be announced here.

Big Fire at Yonkers, N. Y.

New York, July 28.—Fire at Yonkers, N. Y., Tuesday afternoon destroyed two large factory buildings occupied by W. A. Reed & Co., hat manufacturers; Rowland Bros., hat manufacturers; Pass Bros., silk manufacturers, and the Yonkers Silk company. The loss will reach \$500,000 and 800 people are thrown out of employment. There were no casualties.

CURRENCY REFORM TO COME UP NEXT

SECRETARY GAGE TO FORMULATE A PLAN.

Will Be Ready In September—The Measure Is to Be So Framed As to Carry Hope of Adoption By Congress—To Provide Safe and Elastic Bank Currency.

Washington, July 28.—The currency commission bill passed by the house of representatives on the last day of the extra session is dead, and it is not probable that the President will revive the project of having a monetary reform framed and recommended by a committee. It is now planned that an administration plan shall be formulated during the summer and autumn and submitted to congress when it convenes in December.

It is too early yet to give any details of the plan which Secretary Gage may submit to congress. Much may depend on the result of the consultations which he will have during the summer and fall, and features which he might at this time regard as particularly desirable may be abandoned or modified to meet the views of persons who will have to be consulted if anything practical is attempted.

That part of the plan dealing with the banking system will aim to provide a safe and elastic bank currency, and it may embrace some of the features of the Canadian system, or what is known as the Baltimore plan, which was so generally recommended by bankers when it was devised.

The advocates of the immediate funding of the greenbacks will probably be disappointed if they expect any such radical measure to be recommended by the secretary at this time. The greenbacks are too firmly entrenched in congress to be wiped out at a single blow at this time, and the most that can be expected is to frame some provision that will prevent their use as an endless chain for the depletion of the gold reserve and will limit their power for harm as much as possible.

The Sherman notes, which have also been used effectively to draw gold from the treasury, are being gradually retired by the operation of the present policy of the department in coining the silver bullion against which they were issued.

WORRY OVER HAWAII.

British Press Fears Trouble—Comments of Leading Papers.

London, July 28.—The St. James' Gazette, commenting upon Japan's protest in the Hawaiian matter, says: "According to European usage it amounts to a threat to resist the transfer of the archipelago by force, and is equivalent to warning the United States that they must give up their views as to Hawaii or prepare for war. It does mean just so much in the mouth of Japan, though the Americans do not seem to think so. But they have such odd ideas of diplomatic language that they are no great authorities."

The Pall Mall Gazette says: "We have said from the first that it is no concern of Great Britain whether the United States annexes Hawaii or not; but Japan's protest should give the American jingoes something to think about. It remains to be seen whether American opinion will ratify the annexation policy. If it does the matter will become important, for Japan has a powerful navy; and, if it does not, Secretary Sherman, and at any rate President McKinley, will think twice before inviting the Japanese navy to do the mischief it undoubtedly could."

Canada to Impose a Royalty.

Ottawa, Ont., July 28.—At the close of the second sitting of the cabinet it was announced that the government had decided to impose a royalty on all placer diggings on the Yukon, in addition to \$15 registration fee and \$100 annual assessment. The royalty will be 10 per cent each on claims with an output of \$500 or less monthly, and 20 per cent on every claim yielding above that amount yearly. Besides this royalty it has been decided in regard to all future claims staked out on other streams or rivers that every alternate claim shall be the property of the government, and shall be reserved for public purposes and sold or worked by the government for the benefit of the revenue of the dominion.

George S. Hale Passes Away.

Bar Harbor, Me., July 28.—George S. Hale of Boston died here last night of apoplexy. He was 72 years old and one of the best-known lawyers in Massachusetts. He was prominent in tariff reform and civil service reform circles, and had written and spoken much on these topics.

Iowa Prohibitionists Meet.

Des Moines, Iowa, July 28.—The Prohibition state convention met here Tuesday with 330 delegates present, representing fifty-three counties. The work of the convention was not completed, adjourning until today. About \$1,400 was pledged for campaign expenses.

Canada to Have an Archbishop.

London, July 28.—At Tuesday's meeting of the Lambeth conference a resolution was passed recognizing the adoption of the title of archbishop in the provinces of Canada.

LEFT A CONFERENCE AT STRIKE SCENE

COL. REND BOLTS THE MEETING OF COAL OPERATORS.

No Settlement in Sight—The Uniformity Scheme Is Apparently Killed—Labor Leaders Vote Sympathy With the Striking Miners—In West Virginia.

Pittsburg, Pa., July 28.—There were several exciting scenes at Tuesday's meeting of coal operators, called to take some action looking toward a settlement of the strike. Col. W. P. Rend, the Chicago operator, left the meeting in disgust because the operators present refused to try to settle the strike instead of losing time talking about "uniformity." Col. Rend criticized Gen. John Little, chairman of the joint arbitration board, who, he said, instead of being an arbitrator, was an advocate. Other operators attacked Gen. Little for intimating that some of the mine owners are dishonest.

The scene was dramatic when Col. Rend exclaimed: "Then God speed you in the work," and left the meeting. He returned to his hotel, where he was waited upon by the arbitrators, who urged him to reconsider his determination not to have anything more to do with the meeting. He told them no good could result from the meeting unless steps were taken to settle the strike.

W. P. De Armit and other operators do not want this. The chairman of the meeting was Alexander Dempster and the secretary Thomas E. Young of the M. A. Hanna interests. About 65 per cent of the railroad operators and some of the river-mine owners were present. The river operators met in the morning and decided to have nothing to do with the meeting or uniformity. Their refusal to attend kills the scheme. W. P. De Armit after the meeting admitted that if the river operators did not agree to the uniformity movement it could not go through. He admitted that not over 95 per cent of the railroad operators were present and many of those who attended did so out of curiosity.

West Virginia Situation.

Fairmont, W. Va., July 28.—The coal strike in this state does not show much change. The Monongah mines added a number of men to their working force, making 160 men employed—about two-thirds of the force before the strike. Eighty men came into the field from Connellsville and were put to work in the various mines. All the Watson mines are working full, as are the Gaston, Montana, New England and West Fairmont. The agitators are all out of the field except the local men, and they are waiting on the decision of the Wheeling conference.

To Evade the Injunction.

Columbus, Ohio, July 28.—Secretary Pearce is perfecting a scheme to evade the West Virginia injunction order. The injunctions granted prohibit labor agitators under penalty from holding meetings among the miners. Mr. Pearce is a regularly ordained minister of the Methodist Episcopal church, with a certificate to prove the fact, and he believes that no law can be found to prevent him from circulating among the mountain men with song and sermon, preaching to them what he believes to be their duty toward God and one another.

Miners Have Gone Out.

Parkersburg, W. Va., July 28.—The miners in the Monongahela region have gone out en masse, and the news from the southwest and the great Kanawha valley is to the effect that the miners have banked on Gov. Atkinson's good will and struck. There is great excitement.

Strike at Centralia.

Centralia, Ill., July 28.—After a three-day discussion the 250 miners at this place decided to strike, and no coal is being hoisted here. The men were being paid \$2.50 a day. The Illinois Central has eighty cars of coal dumped in the yards here for emergency use.

The Wheeling Conference.

Wheeling, W. Va., July 28.—The gathering of national labor leaders in response to President M. D. Rathford's appeal for help for the striking miners, have issued an appeal to the country to assist the miners in a financial way.

Rich Quartz Discoveries.

San Francisco, July 28.—The latest rumor from Alaska is of the discovery of wonderfully rich quartz in large quantities on the Stewart river. Particulars are vague and beyond the fact that the ledge is a large one and that the rock assays \$300 nothing can be learned. This, if true, will mean much for the Klondyke district. The Stewart river runs into the Yukon not far from Dawson, and it is reasonable to suppose that the placer gold now being found below may have its origin in the mountains at the head of the Stewart river and neighboring streams.

Troops to Go to Alaska.

Cheyenne, Wyo., July 28.—Capt. Patrick Henry Ray of the 9th United States infantry, stationed here, has received telegraphic orders from the secretary of war directing him to go to the Yukon country, Alaska, and establish a United States military post.

GAGE IS FULL OF HOPE.

The Secretary of the Treasury Tells Boston All Is Well.

Boston, Mass., July 28.—Lyman J. Gage, secretary of the treasury, was the guest of the business men of Boston at a dinner in the Tuilleries Tuesday afternoon. Money was talked almost exclusively, and a number of gold Democrats were among those who contributed to the symposium. Mr. Gage's address was in part as follows:

"Opposing forces met in November last and contended bitterly over the most vital of economic questions. That issue is now decided. The ballot, magic exponent of the popular will,

Secretary of the Treasury, LYMAN J. GAGE, of Illinois.

has recorded its imperative voice for honest money and for liberty regulated by law. It now remains to be seen whether from that decision there is to be any successful appeal. We have passed through a wearisome storm. The loss and cost of it have been enormous; but today the skies are fair, the breeze of prosperity brings comfort and restoration. Shall we not be permitted to rest and enjoy it? No. That would be to foolishly wait for, if not invite, further disaster in the future. The final answer, however, must depend upon the urgency of the indifference of the people.

"The administrative branch of the government will not sleep nor rest inactive. Its influence has been and will be for prompt and judicious action. But the administration cannot make laws. It can only execute them after they are made. It is, then, to the legislative body that your doubtful attention should be given, if you desire financial reforms. Your senators and representatives will not consciously antagonize your well-considered desires, but they must be informed and constantly reminded of what it is that you demand.

"The two questions before the country in the last political campaign were the tariff and the currency. One of them is already settled. Whatever the merits or demerits of the new measure in its particular items, it has become the law of the land. The revenues derived from it will, after a possible brief interregnum, be ample for proper government expenditures; and, if the old aphorism be true that 'the revenue of state is the state,' we may say without exaggeration that the state is re-established.

"We have reached a point where with absolute data furnished, commerce and manufacture can make correct estimates and go upon their respective missions of exchange and production with a new sense of security. On the financial side there is really no pressing need for haste. With ample reserves in the public treasury; with financial centers in a full supply of loanable funds; with interest invitingly low; with crop prospects most promising and a good market favorably assured; with new mineral resources coming into view; with a territorial area sufficient to carry its present population many times multiplied; with a people advancing in the elements of intelligence and character, who dare indulge in doleful forecasts?"

Crisis in Iron and Steel Strike.

Youngstown, Ohio, July 28.—Unless the Amalgamated Association decides within forty-eight hours to accept the proposition of the iron manufacturers to pay the same scale for puddling and finishing as is now paid in the Pittsburgh mills the mills here will be started by non-union men. A meeting of the Amalgamated Association has been called here for to-night, and the manufacturers will wait until after that before taking action. If the men decide to return to work on the Pittsburgh scale they will be permitted to do so. Otherwise the mills will be started by non-union men, and the greatest labor battle ever witnessed in the Mahoning Valley will be opened.

Last Steamer for Dawson City.

San Francisco, July 28.—The steamer Excelsior, which sails this afternoon, is the last regular steamer leaving here this season that will take passengers direct to Dawson City. She will connect with the Yukon boats at St. Michael's and, barring accidents, her passengers will be landed on the Klondyke within forty days. One hundred and ten passengers will go on the Excelsior and she will carry every ounce of freight that can be crammed into her hold or on deck.

Huge Dam Gives Way.

Butler, Pa., July 28.—The terrific rain-storm which passed over this section of the country Tuesday morning caused the big impounding dam of the Butler Water company, located at the headquarters of Connoquessing creek, to give way. Fortunately, no houses were in the way of the rush of water, which was irresistible. No lives were lost.

MADE A BIG DEAL IN TROLLEY LINES

H. C. PAYNE AND C. W. WHEAT MORE IN IT.

Will Run Cars to Waukesha, Waukesha Beach and Oconomowoc—Build Largest Power Station in the World to Cost \$600,000 Other State Specials.

Milwaukee, Wis., July 25.—[Special]

—Capitalist Henry C. Payne and C. W. Wheatmore, formerly with the Wisconsin Central railway, have completed the biggest deal in electric railway circles today ever made in the west.

They have secured a franchise for the road to Waukesha and have purchased the Waukesha Beach electric railway, built two years ago.

They will now build electric road to Oconomowoc and take in all the summer resorts along the line.

Arrangements have been made to build new power house, which will be the largest in the United States and will cost \$600,000.

A Laborer Suffocated.

Milwaukee, July 28.—[Special]—Henry Wise, a laborer, was suffocated in a sewer at South Milwaukee this morning by the caving in of the earth. He was dead when a companion tried to extricate him, so they left him there until a coroner could be found. He leaves a wife in an insane asylum.

Hot Fire At Merrill.

Merrill, Wis., July 28.—[Special]—The dry kiln of the H. W. Wright Lumber Company's plant burned yesterday. The loss is eight thousand dollars and the insurance half of that sum.

The Maltsters Organize.

Milwaukee, July 29.—[Special]—The maltsters of the United States have formed a solid business organization which will be conducted in the interests of the maltsters of the country.

May Call Out 12,000 Tailors.

New York, July 28.—Local union No. 1 of the United Brotherhood of Cloakmakers met Tuesday night to complete arrangements for the big strike of the organization scheduled for Aug. 15. All present were in favor of the ordering out of the 12,000 cloakmakers in this city. As an instance of the starvation wages now being paid by the manufacturers, Jacob Silverman stated that for sixty-three hours in the employ of a leading firm he was remunerated with \$1.35, the week's wages. The 2,300 knee-pants makers on strike are hopeful of returning to work next Monday on the terms demanded by them. Their leader will confer with the manufacturers, who seem anxious for a settlement.

Brutal Murder at Springfield, Ill.

Springfield, Ill., July 27.—A brutal murder occurred here on Tuesday. About 8 o'clock neighbors hearing the groans of a woman entered the house of James Mingle at 7th and Jefferson streets and found there Mrs. Mary Mingle and her child of 3 years with ugly gashes in their foreheads. A hatchet was found near by stained with blood. The police were at once notified and at 9 o'clock Deputy Sheriff Barnes arrested James Mingle, husband of the woman, while he was walking south on the Chicago, Peoria and St. Louis tracks near the city limits. When arrested Mingle asked what was wanted. Blood stains were noticed upon his hands. He was brought to the city and lodged in jail. The baby died at 10 o'clock and the woman cannot live.

To Sustain Turkey's Claim.

Berlin, July 28.—The Cologne Gazette says that several of the powers, including Germany, have adopted the standpoint that evacuation of Thessaly by Turkey cannot be demanded unless indemnity by Greece is paid or guaranteed. As payment of indemnity by a loan is out of the question, the only alternative, the Gazette says, seems to be international control of Greek finances, and unless some such guaranty is included in the treaty of peace between Greece and Turkey it is questionable whether Germany will recommend the sultan to accept the treaty.

Three-Cent Case Spent Up.

Indianapolis, Ind., July 28.—The case in the United States Circuit court involving the constitutionality of the 3-cent fare law was appealed to the United States Court of Appeals Tuesday. The appeal is taken on the city's motion to dissolve the injunction granted by Judge Showalter against the enforcement of the law. Under the appeal the controversy between the Supreme Court of the state and the United States Circuit court will come before Judges Woods, Jenkins and Showalter. It is announced that in the event of the Court of Appeals refusing to overrule Judge Showalter the state will appeal to the Supreme court of the United States.

More Cruisers for Great Britain.

London, July 28.—Mr. George J. Goschen, first lord of the admiralty, announced in the house of commons that the government is building four armored cruisers which will be able to fight with a fleet better than any cruiser yet devised by this or any other country.

DEATH ACCIDENTAL IS NOW THOUGHT

JOHN NELSON WAS NOT
MURDERED.

The Coroner's Inquest Will Probably Show Plainly That He Was Killed By the Cars—Adjournment Taken Until Thursday—What Some of the Witnesses Said.

There is but little doubt that the death of John Nelson, at Clinton, was accidental, as the inquest showed. The finding of the dead man was told about substantially as here given: The Swansons, who were cousins of Nelson's said that Nelson had \$35 Friday. They knew that he had spent part of this, however, for new clothes, hat and shoes in Janesville, and did not know how much he had left.

Dr. Wright testified as to his injuries, further facts concerning which were developed after the first session of the inquest.

About four inches over the right eye a round piece of bone an inch across had been cut out as smoothly as if by a punch and forced down upon the brain. There was a similar one on the back of the head. It was hardly possible that a man armed with a coupling pin or similar weapon could deal a blow hard enough to cut such holes, and the theory that Nelson had been killed by tramps for his money was considerably shaken.

Body Was Dragged. After being struck by the engine, Nelson was dragged a considerable distance under the cow-catcher, his body was badly bruised about the hips, his right arm was crushed from the elbow down, and both feet had evidently gone under the wheels. Bits of flesh and clothing were picked up along the track by the curious crowds of Clinton people during the day.

As the theory of foul play came up for discussion, it was thought best at noon to adjourn the inquest and notify the county officers.

District Attorney Jackson and Under Sheriff Cochran went down on the 12:40 train and made preliminary inquiries. The inquest was then adjourned until Thursday morning at 9:30 o'clock.

After the adjournment two or three of Nelson's friends were quoted as having said that the young man tried to borrow small change from them yesterday, thus indicating that he did not have any sum of money about him.

Was a Steady Young Man

Nelson was a steady hard working young man. He had been working for William Duxstad all through the spring and was paid \$40 Friday. It was the report concerning this money that first gave rise to suspicions of foul play.

Nelson was seen in Clinton last about 11 o'clock Monday night. He must have started down the track soon after that for train No. 585 which went through Clinton soon after 1:20 o'clock struck him about half a mile from the depot.

The first intimation anybody had that a man was killed was when the engineer of train No. 585 found a man's hat on the pilot of his engine at Harvard. Word was sent back along the line that a man had been struck between Clinton and Harvard, and for train crews to keep a lookout.

Found the Body.

Train No. 585 went through Clinton at 5 o'clock this morning and about half a mile from the depot, engineer T. W. Reed saw clothing on the track. At the same time a brakeman yelled from the top of a car that there was a man in the ditch. The train was stopped and the crew ran back. Nelson was picked up and put in the caboose. His head was covered with blood from two ugly wounds. He had been dragged about twenty rods in front of an engine, and his clothing was so twisted about him as to make it seem as if it were on wrong side before. He was still breathing, however, in spite of the lapse of five hours; groaned as if in deep pain and once tried to turn over while the train was backing up to the town. He died in the depot fifteen minutes after he had been laid on a cot.

The Jury.

Justice Cronkite was notified as soon as possible and a coroner's jury was summoned consisting of D. G. Marsh, C. E. Jones, Jacob Miller, L. D. Fessenden, H. Olmstead, and Charles Isham.

The witnesses examined were Engineer T. W. Reed, Conductor F. A. Carney, W. G. Strommer, N. K. Swanson, Peter Swanson, Dr. O. P. B. Wright and two or three others, who testified as to Nelson's identity.

Reduced Rates to Dixon.

Via the North-Western Line from stations within 300 miles radius, on account of the Rock River Assembly, to be held at Dixon, July 27-August 13. For dates of sales, etc., apply to agents Chicago & Northwestern R'y.

No Gripe

When you take Hood's Pills. The big, old-fashioned, sugar-coated pills, which tear you all to pieces, are not in it with Hood's. Easy to take.

Hood's Pills

and easy to operate, is true of Hood's Pills, which are up to date in every respect. Safe, certain and sure. All druggists. C. I. Hood & Co., Lowell, Mass. The only pills to take with Hood's Sarsaparilla.

OUTING CLUB MADE MERRY

Very Enjoyable Picnic and Ball Game Up the River Last Evening.

The third of the series of the Outing club parties took place last evening at Crystal Springs park. Supper was served under the trees, and dancing followed. During the early part of the evening an exciting and interesting ball game took place between teams captained by I. F. Wortendyke and H. S. Sloan, which resulted in an easy victory for Attorney Sloan's team by a score of 22 to 8. S. M. Smith and H. H. McKinney were the battery for the losing teams, with Al. Schaller for change catcher, while the good work of C. C. MacLean in the box and the errorless work of H. S. Sloan behind the bat, did much to win the game. Those from out of town who took part in the picnic were:

Messrs and Mesdames—
Arthur Allen, Oshkosh.
Messdames—
G. V. Vance, Lutherville, Md.
Misses—
Cecilia Gookins, Chicago.
Rosalie Morefield, Elkhorn.
Alice Sawyer, Chicago.
Harriet Meacher, Portage.
Bessie Wilcox, Clinton.
Eleanor Barden, Warsaw.
Katherine Franks, Kenosha.
Irene Lane, Evanston.
Messrs—
Lee Bort, Beloit.

THEY FEAR TUBERCULOSIS.

Board of Health and Others to Consult Today.

Dr. U. O. B. Wingate of Milwaukee, Dr. Q. O. Sutherland of Janesville, both of the State Board of Health, and Dr. H. F. Clute, state veterinarian, of Marinette, and Prof. H. A. Russell, consulting bacteriologist of the State Board of Health, and of the State university, held a conference in Madison today to consider the best plan to eradicate bovine tuberculosis in the state. It is believed a large amount of tuberculosis exists among herds of milk-cows in the state, and that much tuberculosis among children is contracted from the milk coming from this source. It is proposed to make tests for this disease among the herds and show to the owners the importance of taking steps to eradicate the disease as fast as possible, in order to prevent it from spreading, and thus save the remainder of the herds as well as to prevent the disease in the human family.

Body Was Dragged.

After being struck by the engine, Nelson was dragged a considerable distance under the cow-catcher, his body was badly bruised about the hips, his right arm was crushed from the elbow down, and both feet had evidently gone under the wheels. Bits of flesh and clothing were picked up along the track by the curious crowds of Clinton people during the day.

As the theory of foul play came up for discussion, it was thought best at noon to adjourn the inquest and notify the county officers.

District Attorney Jackson and Under Sheriff Cochran went down on the 12:40 train and made preliminary inquiries. The inquest was then adjourned until Thursday morning at 9:30 o'clock.

After the adjournment two or three of Nelson's friends were quoted as having said that the young man tried to borrow small change from them yesterday, thus indicating that he did not have any sum of money about him.

Was a Steady Young Man

Nelson was a steady hard working young man. He had been working for William Duxstad all through the spring and was paid \$40 Friday. It was the report concerning this money that first gave rise to suspicions of foul play.

Nelson was seen in Clinton last about 11 o'clock Monday night. He must have started down the track soon after that for train No. 585 which went through Clinton soon after 1:20 o'clock struck him about half a mile from the depot.

The first intimation anybody had that a man was killed was when the engineer of train No. 585 found a man's hat on the pilot of his engine at Harvard. Word was sent back along the line that a man had been struck between Clinton and Harvard, and for train crews to keep a lookout.

Found the Body.

Train No. 585 went through Clinton at 5 o'clock this morning and about half a mile from the depot, engineer T. W. Reed saw clothing on the track. At the same time a brakeman yelled from the top of a car that there was a man in the ditch. The train was stopped and the crew ran back. Nelson was picked up and put in the caboose. His head was covered with blood from two ugly wounds. He had been dragged about twenty rods in front of an engine, and his clothing was so twisted about him as to make it seem as if it were on wrong side before. He was still breathing, however, in spite of the lapse of five hours; groaned as if in deep pain and once tried to turn over while the train was backing up to the town. He died in the depot fifteen minutes after he had been laid on a cot.

The Jury.

Justice Cronkite was notified as soon as possible and a coroner's jury was summoned consisting of D. G. Marsh, C. E. Jones, Jacob Miller, L. D. Fessenden, H. Olmstead, and Charles Isham.

The witnesses examined were Engineer T. W. Reed, Conductor F. A. Carney, W. G. Strommer, N. K. Swanson, Peter Swanson, Dr. O. P. B. Wright and two or three others, who testified as to Nelson's identity.

Reduced Rates to Dixon.

Via the North-Western Line from stations within 300 miles radius, on account of the Rock River Assembly, to be held at Dixon, July 27-August 13. For dates of sales, etc., apply to agents Chicago & Northwestern R'y.

SOME COUNTY NEWS

TOLD IN A LINE

AN EVANSVILLE PIONEER IS
NO MORE.

George Albertie Answers the Final Summons at a Ripe Old Age—William Vale of Porter, Breaks His Arm While Haying—News From Emerald Grove.

Evansville, July 28.—George Albertie died at his residence on Liberty street, July 21, aged 79 years, 8 months and 18 days. George Albertie was born in Lancaster county, Penn., November 3, 1817. He moved with his parents when nine years of age, to north-western Ohio, and in 1845 came west and was one of the pioneers of Rock county, Wisconsin. He was married April 25th, 1853, to Cynthia Tuttle, daughter of Jonathan and Maria Tuttle, and together they established and built up a home into which there came four sons and two daughters, all of whom have reached mature years and survive their father. Mr. Albertie resided on his farm four miles northwest of Evansville until within the last two years, which have been spent in Evansville. He bore the reputation of being a peaceable citizen, a good neighbor, honest in his dealings and faithful to his obligations. The many beautiful floral offerings at the funeral service bore testimony to the high esteem in which he was held by those who knew him. The pastor of the Baptist church with which the family have been connected paid a comforting tribute to his memory and drew out the lesson such a life enforces upon the thoughtful and devout mind.

SOME PORTER NEWS NOTES

William Vale Breaks His Arm While Haying—Other Gossip

Porter, July 28.—While working at W. Masher's haying, William Vale had the misfortune to break his arm just above the elbow. It has been quite painful but is getting on nicely now. A number from here participated in a pleasant surprise party at the home of Mr. and Mrs. Will Shrode in Stoughton, on Thursday, the occasion being Mr. Shrode's birthday. Charles Walker of Evansville, is spending a few weeks with relatives here. J. Ryan of Edgerton, was a visitor here on Sunday. D. E. McCarthy of the town of Fulton, was a pleasant caller on Monday. Mrs. James Hartz has returned to her home in St. Louis after a month's visit here. Miss Mina Fessenden of Clinton, is the guest of her aunt, Mrs. Will Masher. Isaac Connors' two oldest sons of Janesville, are spending a week at St. Dooley's. The ice cream social at Charles White's on last Thursday evening, was a very pleasant affair, and a nice little sum was realized which will go to the Fulton church. The Misses Condon accompanied by their brother of Edgerton, visited relatives here on Sunday. Miss Nellie Cheesbro of Burr oak, spent part of the week with old school mates here. Mr. and Mrs. Woodworth of Beloit, visited relatives a few days the first of the week. Miss Clara Pound was the guest of relatives in the town of Fulton, for a week recently. Mrs. Delaney of Janesville, visited friends the first of the week. "Porter Wonders" and "Leydenites" crossed bats on Sunday on the latter's grounds, but owing to the rain the game had to be abandoned after only two innings were played. Old Swanson is building a new home. Joe Jordan, of Richland Center is working here. Tobacco in this town is looking fine, and some of the farmers have already commenced topping. Most of the grain will be harvested this week.

CUTTING GRAIN AT THE GROVE

The Work Is About Finished—Crop Is Of Average Yield

Emerald Grove, July 27.—Grain cutting is about one-half finished and will be an average crop. Corn and tobacco is looking fine. The recent rains were a great help to both. The sun will be eclipsed on Thursday of this week. Mrs. T. S. Oadams and Mrs. Holloway leave Wednesday for a visit in Lyons and Moquoketa, Iowa. They reach Elburn, Ill., about August 15, at which time Rev. T. S. Oadams is expected home from England, where he is spending his vacation. The ice cream served last Friday evening by the Young People's society was exceptionally fine. Miss Blanche Morrison of Janesville, is a guest of Mrs. W. A. Dean. Mr. and Mrs. J. R. Lamb spent Saturday and Sunday at the Monona Lake assembly at Madison. David Brown and family spent Sunday on section 36, Harmony. Albert Wilson, of Rush Lake, Wis., visited among the McArthur's, last week. Mr. Wilson has been in the employ of the Northwestern road at that point about twenty years. All kinds of plain white crockery at G. L. Jones.

IS IT A TRIFLE?

That Common Trouble, Acid Dyspepsia or Sour Stomach

Now Recognized as a Cause of Serious Disease.

Acid dyspepsia, commonly called heartburn or sour stomach, is a form of indigestion resulting from fermentation of the food. The stomach being too weak to promptly digest it, the food remains undigested, and fermentation begins, filling the stomach with gas, and a bitter, sour, burning taste in the mouth is often present. This condition soon becomes chronic and being an every day occurrence is given but little attention. Because dyspepsia is not immediately fatal many people do nothing for the trouble.

Within a recent period a remedy has been discovered prepared solely to cure dyspepsia and stomach troubles. It is known as Stuart's Dyspepsia Tablets and is now becoming rapidly used and prescribed as a radical cure for every form of dyspepsia.

Stuart's Dyspepsia Tablets have been placed before the public and are sold by druggists everywhere at 50 cents per package. It is prepared by the Stuart Chemical Co., Marshall, Mich., and while it promptly and effectually restores a vigorous digestion, it will not injure the most delicate stomach, but on the contrary by giving perfect digestion strengthens the stomach, improves the appetite and makes life worth living.

CITY NEWS IN A PARAGRAPH.

BICYCLE parade tonight.

J. W. Bates of Beloit, was in the city yesterday.

Mr. and Mrs. F. O. Howe are home from Lauderdale.

Wisconsin Lodge No. 13, I. O. O. F., meets this evening.

This is the regular rehearsal night for the Y. M. C. A. band.

Mr. and Mrs. Frank B. Strickler are home from Lauderdale lake.

Miss Nettie G. Lederer, of Chicago, is the guest of Miss Vinnie Crall.

The Imperial band's concert will be given at the court house park this evening.

Miss Vinnie Crall has returned after a week's pleasant visit with friends in Chicago.

BORN.—To Mr. and Mrs. C. J. Kirkland, Lindon avenue, a boy. All are doing well.

CHARLES HORN and E. Cone attended the public test of the Edgerton water works yesterday.

The Ladies Aid society of the Baptist church met in the church parlors this afternoon.

You can afford to swing in a good hammock of your own at the prices Sanborn sells them.

RED raspberries and blackberries, plenty of them either by the case or box. Sanborn & Co.

CAPT. M. Birmingham and J. C. McGinley of the fire department, were in Edgerton yesterday to attend the public test of the water works.

A CANTON of Patriarchs Militant will be organized next Friday evening, July 30, at Odd Fellows' hall on North Main street, and those wishing to join are requested to be present.

Mrs. Moses Pritchard and daughter, Winnie, are packing up their household goods prior to removing to Chicago, where they will reside. Their departure from this city will be regretted by many.

CARDS have been received in the city announcing the betrothal of Miss Fanny Cohn, of Clinton, Missouri, and Sam Rosenfeld, of Emporia, Kansas. Mr. Rosenfeld was a former local clothing merchant.

An item worthy of thought—A bicycle—and especially when it costs nothing. Every time you buy 50c worth of tea or coffee of Sanborn you get a ticket on a high grade wheel which is to be given away shortly.

BACK FROM LAKE AT 2 A. M.

Excursionists Delayed In Their Return Through Missing the Train.

It was two o'clock this morning when a portion of the local delegation who went to Devil's Lake yesterday returned home. When the train of thirteen coaches that left here yesterday pulled into Madison the train was made into two sections and in two sections the return to Janesville was made.

The day at the lake was spent very pleasantly. Those who failed to reach home until 2 o'clock this morning stopped off in Madison to see the sights and missed the train. That left them no alternative but to wait for the freight.

FOR COUNTRY MERCHANTS

Railroads Grant Concessions For the September Excursion

Reduced rates have been granted by the Western Passenger association for country merchants who propose to go to Milwaukee on the excursion planned by the Manufacturers and Jobbers' association. This association concluded to have only one excursion, to take place between the 4th and 6th of September. Secretary Wilkins will furnish each Milwaukee member with as many membership cards as he wishes to post to his patrons in the country. If the country store keepers wish to take advantage of the reduction of rates, it will be necessary for them to join the association.

BAND CONCERT THIS EVENING

The Imperial Band to Play at Court House Park

This evening at the court house park the Imperial band will give an open air concert. The following program will be rendered:

March, "Golden Bell".....Dalbey
Overture, "A Gay Old Time".....Eyer
Song and Dance.....Al. Kniff
Waltz, "Sweet Repose".....Max Witt
Two Step, "The Ragged Rascals".....Holt
Polka, "Dalliance".....Heed
Ragtime, "Strike".....Dalbey
Sousa's Band March.....Fassett

THE OVERFLOW OF LOCAL NEWS.

THE MEDICAL BOARD MEETS

Qualifications of Would-Be Doctors Under Scrutiny.

The new State Board of Medical Examiners met in regular session in the club room of the Hotel Pfister, Milwaukee, yesterday and were in session until late at night. A class of about fifty was on the ground. All the members of the board were present. An opinion as to some points of the law was read to the board, and the work of examining the diplomas was taken up and fifteen of them approved. Only two of the applicants took the examination prescribed by the board, the others all having diplomas. A considerable number of old practitioners have applied to be put on the list of certified physicians to be prepared by the board. After transacting the business that time would allow, the board adjourned until today, when the consideration of the remaining diplomas and certificates will begin. The board has undertaken to draw up a list of accredited medical colleges, whose diplomas will permit the holders to practice in the state without the necessity of taking an examination, but this list will not be complete for several weeks as the secretary has written to the boards of other states for copies of their lists. The board will adjourn some time today.

Surest Tranquillizer of the Nerves.

The surest tranquillizer of the nerves is a medicine which remedies their supersensitiveness by invigorating them. Over tension of the nerves always weakens them. What they need then, is a tonic, not a sedative. The latter is only useful when there is intense mental excitement, and it does not exist in the degree of tension from mental application which they would be totally unable to endure without its assistance. Such, at least, is the irrefragable conclusion to be drawn from the testimony of business and professional men, literateurs, clergymen, and others who have tested the fortifying and reparative influence of this celebrated tonic and nerve.

Excursion Rates to Lake Kegonsa.

The Chicago, Milwaukee & St. Paul Railway Co., will sell round trip excursion tickets to Lake Kegonsa, Wisconsin at \$1.25 from May 15 daily to September 30 limited to 30 days. This lake is situated in one of the most delightful places in the state. The lake is four miles long and three miles wide, possessing a number of pretty bays, spring water, bathing and fishing. All trains stop at the lake.

Burning, itching skin diseases instantly relieved by De Witt's Witch Hazel Salve, unequalled for cuts, bruises, burns. It heals without leaving a scar. C. D. Stevens.

Opportunity for Home-Seekers.

There are excellent opportunities along the line of the Chicago & Northwestern R'y in Western Minnesota and South Dakota for those who are desirous of obtaining first class lands upon most favorable terms for general agricultural purposes, as well as stock raising and dairying. For particulars and landseekers' rates, apply to agents of the Northwestern line.

SOME LATE NEW THINGS.

For the purpose of protecting horses from the hot sun a canvas awning is attached to a light frame work fastened to the harness, to project a few inches above the horse's body.

A combined ice and roller skate recently patented has the wheels set on rollers fastened to clamps, so that they can be sprung upward out of line of the runner when not in use.

For use in exterminating bedbugs and other vermin a small lamp is fitted with a water compartment in the top, with a nozzle, to direct the steam in any desired direction and scald the pests.

A handy attachment for use on umbrellas has a rod inside the handle extending up to the upper catch to release the braces by pressing the lower end of the rod when it is desired to lower the umbrella.

A simple signaling device recently patented consists of a post with a projecting arm placed beside a track to engage the lever extending outward from the side of the cab to blow the whistle or ring the bell.

For the purpose of preventing the overflow of jugs and cans when filling with a funnel a piece of cork is attached to the lower end of a rod running through the funnel so that the float rises in sight as the jug fills.

A newly-patented water-proof sweat-band for hats is formed of a non-absorbent material, attached to a series of perforated cork sections inside the hat rim, to keep the hat from coming in contact with the head.

RAM'S HORN.

You may lose your temper, but others will find it.

What an immense amount of laziness there is going on by the name of poor health.

The man who does the shouting is often willing to let somebody else do all the work.

Keep your mind stayed on the Lord, and you will have both peace and mountain-moving faith.

The fact that God has never failed us ought to be taken as a sure evidence that he never will.

You can no more live a good life without an open confession than a tree can live without bark.

The man whose faith says, "The Lord is my strength," will never find his burden too heavy to carry.

The man who has to look dismal when he feels happy, ought to pray a good deal before he starts for church.

There is too much shouting being done in church by people who don't weigh an ounce for the Lord anywhere else.

The world has but little to hope from the man to whom the golden age of the past is more inspiring than the golden opportunity of the now.—Ram's Horn.

August Belmont has ordered a \$5,000 statue of his favorite horse, Henry of Navarre.

THE CUP WILL BE A BEAUTY

Prize Offered By The Horlick Company for Bicycle Races.

The silver cup to be given as a prize for the cycle races at the Caledonian games will be a beauty. It will be donated by the Horlick Food Company of Racine, and will cost \$65. It must be won three times before it passes from the control of the society. William Horlick, Jr., writes Dr. Mills that the cup has been ordered, and that it will be shipped as soon as completed. It will bear the following inscription: "First Prize Presented by the Horlick Food Company, Racine, Wis., to the winner for the third time, of the annual leading bicycle race at games of the Rock County Caledonian Society, Janesville, Wis., 1897."

THE PROGRAM FOR TONIGHT

BICYCLE parade.
BAND concert.
WISCONSIN Lodge No. 14, I. O. O. F.
Y. M. C. A. band rehearsal.

There is a time for everything; and the time to attend to a cold is when it starts. Don't wait till you have consumption, but prevent it by using One Minute Cough Cure, the great remedy for coughs, colds, croup, bronchitis and all throat and lung troubles. C. D. Stevens.

Scotland's Fast Train.

It is now claimed that the Caledonian early morning train from Carlisle to Aberdeen is the fastest train in the world. An expert in speed who made the trip says that for twenty miles the average was 72.8 miles an hour, and for two miles 81.6. The whole performance is described as the ordinary work now on the Caledonian, and far in excess of English times. The engine was the Dunlastair, which, in addition to large cylinders, has the largest boiler of any locomotive in Great Britain. In ten years the Caledonian has reduced the time from Carlisle to Aberdeen from 7 hours 32 minutes to 4 hours and 31 minutes.

Vitality and vigor—these are the characteristics of De Witt's Little Early Risers, the little pills for constipation, biliousness and all stomach and liver troubles.

His Letter Opener.

"I have here a neat and pretty little letter opener," began the agent. "So have I at home," said the business man, sadly. "I'm married." And the agent, knowing it was useless to talk further, took his departure with a fellow feeling in his heart for his intended victim.—Cincinnati Commercial Tribune.

ELASTIC STARCH

LATEST IMPROVED

STARCH

A GREAT INVENTION REQUIRES NO COOKING.

MAKES COLLARS AND CUFFS STIFF AND NICE AS WHEN FIRST BOUGHT NEW.

PREPARED FOR LAUNDRY PURPOSES ONLY

ONE POUND OF THIS STARCH WILL GO AS FAR AS A POUND AND A HALF OF ANY OTHER STARCH.

MANUFACTURED ONLY BY THE J. C. HUBINGER BROS' CO KEOKUK, IOWA NEW HAVEN, CONN. COPYRIGHTED

ELASTIC STARCH has been before the people of the United States for twenty-three years and is without doubt the greatest starch invention of the Nineteenth Century. Last year its sale reached the unprecedented number of twenty million packages. It is prepared upon scientific principles by men who have had years of practical experience in laundry dyeing. It makes ironing easy, restores old summer dresses to their natural whiteness, and imparts to linen a beautiful and lasting finish. It is the only starch manufactured that is perfectly harmless, containing neither arsenic, alum, or any other substance injurious to linen, and can be used even as a baby powder.

KINGSFORD'S OSWEGO CORN STARCH

THIS DAY IN HISTORY

- 1533—The British dispersed and partially destroyed the Spanish armada by means of fireships.
- 1833—Commodore William Bainbridge, an American naval officer distinguished in the war of 1812, died; born at Princeton, N. J., 1774.
- 1844—Joseph Bonaparte, brother of Napoleon I and ex-king of Naples, died at Florence; born 1768.
- 1847—John Walter, proprietor of the London Times and the pioneer in steam printing, died in London; born 1773.
- 1863—William Lowndes Yancey, a prominent southern leader, died near Montgomery, Ala.; born 1814.
- 1875—Hans Christian Andersen, Danish poet and novelist, died; born 1805.
- 1883—4,000 lives lost by earthquake in the island of Ischia.
- 1891—Samuel Sells, printer, who first put the "Star Spangled Banner" in type, died at Baltimore; born 1800.
- 1894—Cardinal Ledochowski, an old and determined enemy of Bismarck, died at Lucerne; born 1823.
- 1895—Colonel Alfred M. Wood, "war mayor" of Brooklyn, died in that city; born 1823.

A DIFFERENT SITUATION.

One thing President McKinley has not had to do and that is to apologize for the republican tariff law, as President Cleveland did for the democratic law of 1894. The "tariff of perfidy and dishonor" is now only a memory, but the people do not forget Mr. Cleveland's letter to Professor Wilson in which he asked:

"How can we face the people after indulging in such outrageous discriminations and violations of principle?"

Neither do they forget Mr. Cleveland's admission that the connection of democratic senators with the sugar was a delicate subject. They are glad Mr. McKinley had no need to make such suggestions.

HE IS IN EARNEST.

President McKinley has shown the gold democrats and other critics of the administration by his currency message that the republicans will do all in their power to bring about monetary reform. It is not at all certain that the silverite senate will pass a currency commission bill next winter when the matter comes up, but if it does not the republican party will not be responsible for the failure. All of the government which the republicans control, the president and the house, favor it, and this is as far as the party's accountability on this question goes.

The action of the Pan-American delegates in placing big orders for machinery and goods in the United States has called the attention of the rest of the world to our South American trade. The convention will do as much good by advertising this country's ability to meet competition as by drawing orders direct.

The cost of outfits will keep a good many people out of Alaska, but nothing on earth will keep them from swallowing the bait offered by Alaska mining stock agents. The man who sells handsomely engraved certificates will make more out of the Alaska fever than anybody else but the miner ever so rich.

But silver is again lower and the silver dollar when melted is worth about as much less than it was in 1893 as the bushel of wheat is worth more than it was in 1894. From the way the wheat-silver ratio has wobbled Mr. Bryan must have let his hand slip.

When the farmers are prosperous all Rock county is prosperous, and this year the condition of the farmers is better than it has been since 1891. More than that there is every prospect of still greater improvement another year.

The buyers of gold bricks will be putting up business blocks with their dividends while speculators in Yukon mining stock are negotiating for new caseboards on their last winter's overcoats.

A Janesville man saw 40,000 bushels of 70 cent wheat delivered to warehouses in a little Indiana town, and found Indiana people willing to forget the "wheat and silver" campaign of 1896.

President McKinley's message on the currency is likely to brush away much false logic about the people's money, and point out clearly the path of future expansion.

No sensible man will give away a large holding of sugar stock these days, even to free himself for a trip to the Yukon.

A NUMBER of the local cyclists expect to attend a dance at the La Prairie Grange hall Friday evening.

MICHIGAN CITY IS AFIRE

The Indiana Town Seems To Be Doomed, and Many Lives Have Been Lost.

Michigan City, Ind., July 18—Fire started in the big sash and blind factory at 11 o'clock this morning, and spread rapidly.

All the business portion of the city is now burning.

Aid has come from Chicago and elsewhere. Several firemen have been killed, and in addition, other lives are known to be lost.

The merchants in the business section are panic stricken, and are moving their goods as fast as possible, as it looks as if the entire town would be wiped out. At 3:15 p. m. the blaze had not yet been controlled.

Right in the Swim.

May Strike in Iowa.
Centerville, Iowa, July 28.—Prospects for a general strike among the coal miners of Appanoose is becoming more apparent. A delegate meeting is called to meet in Centerville next Friday and if the eastern difficulties are not settled by that time there is little doubt that the 1,500 miners in this county will strike for \$1 per ton.

To Oppose Senator Burrows.
Lansing, Mich., July 28.—In an interview Gov. Pingree practically admitted that Col. John Atkinson, the Pingree leader in the last legislature, will be the administration candidate for United States senator in opposition to Senator Burrows.

Village Is Wiped Out.
Bartow, Cal., July 28.—A fire broke out Tuesday morning in the saloon of J. C. Gallagher and in less than an hour the entire business portion of the town was wiped out. The Harvey house and railroad buildings were saved. The origin of the fire is unknown.

PICKING A BICYCLE GEAR

Fresh Racing Men Aspire to Gears of 80 to 90.

One of the hardest of the many questions to decide when buying a new bicycle is that of gear. For the benefit of those who may not know, the gear of a wheel is approximately one third of the distance it travels in one revolution of the pedals. This method of figuring originated in the days of the old high wheel when the diameter of a man's front wheel was his gear. When the safety came in, it was geared to move as far with one revolution of the pedal as its taller rival, but as the high wheel was 54 or 56 inches, the distance it would travel would be about three times its diameter, therefore the gear of the safety is about one-third of the distance it will cover with one push of the pedal. Another way of putting it is that a safety geared to 68 is equivalent to riding one of the old ordinaries with a front wheel 68 inches in diameter. While the ordinary was in use, gears never ran above 60 on the safety. Sixty was the largest size made in ordinaries and no one thought of gearing safeties any higher.

However, when pneumatic tires came in and improved bearings and reduced weights made wheels so much easier to propel, there was a natural call for higher gears. As wheels improved gears increased and a very natural mistake was made in supposing that an easy running wheel should have a high gear. A racing man no doubt should use as high a gear as he can handle, as his aim is to get a maximum speed out of his wheel, but why an ordinary road rider should use higher than a seventy gear would be difficult to explain. Miles have been ridden in the fastest time on record on less than a 70 gear. The only object of a high gear on a road wheel would be to make slow pedaling down hill, as every rider knows that a low gear climbs hills better than a high one, and even going down hill a low gear is much easier to handle. The gear for a Janesville girl or woman of average strength should be between 56 to 66, while from 66 to 76 is high enough for any gentleman. Instead of this the average gear of women's wheels here is not much below 66, while 68 to 76 will be found to be popular on men's wheels, while gears from 80 to 90 are quite common.

Want a Chance To Sell You Coal.

I am in a position to make prices and have the stock.

Good Printing...

Is like good painting—it demands and obtains a second glance. The second glance leads to thought about and knowledge of the thing portrayed, and then on to the artist or advertiser.

The kind of printing as well as the kind of painting that it pays to do and to have done is that which obtains this "second glance." Plenty of the other kind!

We are PRINTERS. Our work obtains glances of admiration, and thus leads on to the end desired. We don't do the "other kind." Put our job room to the test.

MUST STAND TRIAL IN THIS COUNTY

JACK HESS IS DENIED CHANGE
OF VENUE.

Did Not Convince the Court That He Could Not Get a Fair Trial—Now Asks For Change to the Circuit Court—Other Cases Before Judge Phelps.

The troubles of Jack Hess and his partner, William Saunders, had their customary weekly airing this morning, their objective point being the municipal court. They went up armed with affidavits of prejudice of all mankind against them, and a grim determination to delay their trial, if it were within range of human possibility. In their affidavits submitted to the court in support of the motion for a change of venue to some other county, they reiterated their "assurances of highest consideration" to the press of the county, stating among other things that they had repeatedly been published as guilty, and that in consequence thereof they could not have a fair and impartial trial.

One of the affidavits set forth in addition that the prisoners have been falsely imprisoned in Rock county on a charge of a crime committed in another county.

Get No Change.

District Attorney Jackson submitted affidavits of Sheriff Acheson, Mayor Thoroughgood, Chief of Police Hogan and County Clerk McIntyre stating that in their belief the prisoners could have a fair and impartial trial. Judge Phelps overruled the motion for a change of venue to some other county, stating that there were no facts set forth to show prejudice. The only ground for granting a change would be the fact that an unbiased jury could not be obtained for the trial. He believed that there were a thousand citizens in Rock county, competent to act as jurors who either had not heard of the case or had formed no opinion. His Honor had read the newspapers and failed to recall an instance where they had stated that the prisoners were guilty.

At this point in the proceedings Hess took it upon himself to dispute some of the statements of the court. He was reminded that the state was paying a lawyer to talk for him. Having failed to swear the case out of the county Hess gave notice of his desire to swear it away from the municipal court to the circuit court, on the ground of the prejudice of the court. Saunders made a similar move. The case was continued until Friday to give the defendants opportunity to file affidavits.

During the morning S. M. Smith, who had been appointed attorney for Hess, was by the court appointed attorney for Saunders also.

A Family Disagreement.

Several yards of family linen were washed in the municipal court room this morning. The Pickering and Quirk families were the interested parties, being defendants and complaining witnesses respectively. It was a case in which not only did a man raise his hand against a woman, but in which a brother struck a sister. Edward Pickering was the brother and Mrs. Quirk the sister. The defendant made no defense, and in fact he appeared to have none, except a threat made by his sister in retaliation for one made by Pickering. He was found guilty and assessed a fine of \$5 and costs, amounting to a total of \$11.84, or ten days. At last advice he was taking the ten days. T. S. Nolan appeared for Mrs. Quirk.

The case was called yesterday morning. The defendant appeared to be in a great hurry for a trial, as he wanted to get back to work. The court set 2 o'clock as the time. The hour came and passed as did several, but they failed to bring Mr. Pickering. At last the officers were started on his trial, and he was brought in about 5 o'clock. The excuse he offered "was that he was talking with a man and forgot." Judge Phelps remarks that he would fix matters so as to jog his memory a little when the next appointment rolled around, and fixed bail at \$50, in default of which Pickering spent the night under Sheriff Acheson's hospitable roof.

Assault and Battery Case.

George Behrendt, charged by Timothy O'Rourke with assault and battery, was before the municipal court this morning. The defendant asked for an immediate trial. He was given a date tomorrow. Mr. O'Rourke says that Behrendt attacked him without provocation on the Milwaukee street bridge, and a second time on the crowd. A tobacco shed, a vest, a coil of boys, etc., etc., are "props" in the case.

STRENGTHENING THE DAM

Captain Griffiths Hauls Sand From the Mole Bar

One hundred and thirty tons of sand are now being hauled down the river by boat and dumped in the vicinity of the dam for the purpose of strengthening it. Captain Richard H. Griffiths with the steamer Mayflower has the task in hand. The sand is taken from the Mole bar one mile north of this city and hauled down on a scow. The expense is being met by the Water Power company and it is said that the work will take some time.

People are requested to keep off of the west side of South Main street from 7:10 to 7:20 o'clock this evening, to allow the patrol to clear right of way for the drill run. The box will be pulled promptly at 7:15 o'clock.

NEWS HEARD ABOUT THE CITY

COUNTRY roads are dry again.
MONEY to loan. S. D. Grubb.
MANY German carp are still being caught.

STRICTLY fresh eggs. Scents and d. at Sanborns.

Few of those excellent \$1 ham, one left, at Sanborn's.

THE steam roller was in service on Court street today.

VEGETABLES and berries, very choice line of them. Sanborn.

SANBORN'S picnic list on page 8 is popular with people who take a day off.

ARTHUR J. Harris will build a \$4000 residence on Sinclair street, Third ward.

J. S. NORSE, a Chicago cyclist, rode into town today, being on his way to Madison.

THREE well known Janesville girls are soon to marry Chicago, Milwaukee and Beloit gentlemen.

An eleven pound boy has safely arrived at the Glen street home of Mr. and Mrs. John Groesbeck.

ANOTHER Christian Endeavor train pulled into the city this morning at 4:50 being on its way east.

EASY enough for the camper to select a suitable lot of eatables from Sanborn's list. See page 8.

FOUR Beloit young ladies rode into town today on their bikes and ate their dinner in the city park.

New lot of Heintzes' baked beans and tomato sauce and Heintzes' catsup just received. Sanborn & Co.

STREET cars do not stop at the Beloit road corner, now, but run clear around to the power station instead.

SUPT. Byzer's men are now engaged in laying water pipe on Mineral Point avenue, from Pearl to Palm street.

THE hay tool manufacturers who attended yesterday's meeting in this city, left for Milwaukee this morning.

WITH a band concert, a cyclists' parade, and a fire department drill, the town will be fairly lively this evening.

T. P. BURNS is unloading stocks of summer goods at his special sale. Nothing like low prices to make goods sell more rapidly.

It is requested that everyone in the bicycle parade tonight carry a light. Those who have no bicycle lamps are requested to bring Chinese lanterns.

A PARTY of thirty or forty people enjoyed a basket picnic at Oak Lawn Hospital grounds today. Dinner and supper were served, and the occasion was an exceedingly pleasant one. Mrs. George Searcliff, Jr., was the prime mover in the event. Many old settlers of this vicinity were present.

FLORENCE HART MINER will commence her classes in Janesville, August 9, at 301 Court street. Teaching all day Monday, Tuesday and Wednesday until the second week in September. The course will embrace china painting, oil and water colors and drawing, charcoal, pencil and pen and ink. Further particulars can be secured at the above address.

TO RUN SIX CARS SHORTLY.

Old Motors Will Not Be Used—Run On 15 Minute Schedule.

Within the next few days six street cars will be put on the line and the best service that has been given here will soon be inaugurated. Supt. Cummins says the new cars will be in service just as soon as the new motors arrive from the shops of the Westinghouse company, the plan of using the old ones being abandoned. When the cars are all in service they will run at intervals of 15 minutes to all points on the line, with the exception of the Forest Park line, on which, it is said, the half hour service will be continued, for the reason that the patronage is light on that line.

DAKOTA FARMERS ARE HAPPY.

They See Good Times Ahead and Crops Are Fine.

E. S. Williams is home from a two weeks stay in South Dakota, where he went on a business and pleasure trip. "There are many evidences of returning prosperity about Watertown," he said. "The crops were never better than they are today. Farmers were never more anxious to hold their farms than they are at the present time, for they see good times ahead."

TO PUT ON MANY SPOTTERS

Rumor Says Railroad Men Are To Be Watched.

Conductors on several lines with headquarters in Chicago, may expect to see their heads come off within a short time if the report which is rife in railroad circles is correct. Of course, there are spotters at work all the time, but it seems necessary in the judgment of some traffic managers to place ten extra men for one of the usual roster every two years.

FRED BLAKELY HAS SIGNED.

The Young Janesville Man to Play With the Colts.

The management of the Oshkosh Colts states that Fred Blakely of Janesville, the young pitcher who did such effective work against the Stevens Point team Saturday, July 17, has been signed and is going to that city to live.

HE SAVED THE BOY'S LIFE

William Nichols Rescues a Lad From The River

Will Nichols saved a boy's life yesterday afternoon. The lad, who was but seven years old, fell into the river near the Fourth avenue bridge, while watching men unload sand at the dam.

DO NOT DRAW FLIES

THE DRAYMEN SAY

MASTERS "DENY THE SOFT IMPEACHMENT."

Say That They May Draw Loads, But Will Not Admit That the Former Charge Is True—Angry Over Communication Sent to Council at Last Meeting.

Janesville draymen deny that "they draw flies," or that they are a "public nuisance."

They refuse to admit that they are responsible for "bad odors."

None of them will own up to the fact that they have made Franklin street a "stamping ground."

The knights of the whip were quite angry this morning, and talked angrily to a Gazette reporter. The cause of their wrath was a communication presented to the council on Monday evening.

"Just hear what the document says," said one of the draymen who was reading the communication in a newspaper account of the council proceedings: "We desire to protest against the continuous occupation of Franklin street adjoining Milwaukee street, by drays and draymen. The practice now followed makes the street at that important business center, a mere stamping ground. It accumulates flies and bad odors and is certainly very detrimental to the property. Owners and occupants in that locality believe that drays should be required to make their standing place at least one hundred feet from the Milwaukee street crossing. This, we believe, would be no damage or inconvenience to the draymen or their patrons."

One of Them Speaks.

"Some of us draymen have been in business here for twenty years. For a long time our 'stand' was at the corner of Milwaukee and River streets. That was a good place for us, but they made us move away, because, they said, we were in the way of the fire department. We are willing to go back take our charges and stand on our own responsibility. We do not want to be chased about from pillar to post. We want to do what is right, but we do not like to be chased away on the grounds that we 'draw flies,' cause 'bad odors' or 'make the street a stamping ground.' We want a chance to earn a living, the same as anyone else. We stand here, and wait for business, but we do not make nuisances of ourselves. We are willing to admit that we often draw loads, but deny that we draw flies. That is a little too much."

TEAM TO RUN FOR A RECORD

Fire Patrol to Put Water on S. B. Smith's House in Six Minutes.

The fire patrol team will make a run for a record at 7:15 o'clock this evening. The run will be from the East side station to the residence of Stanley B. Smith, in Forest Park. Chief Spencer thinks the department can put a stream of water on Mr. Smith's residence in six minutes from the tap of the bell, so the test will be made. All teams and cyclists are requested to keep out of the way of the team at the hour mentioned. The route to be taken is from the east side fire station south on the west side of South Main street to Oakland avenue, east on Oakland avenue to Jackson street, south on Jackson street to Garfield avenue, at which point hose will be attached to the hydrant, two hundred feet of hose laid from the wagon and a stream of water thrown on Mr. Smith's residence.

Miss Ada Thoroughgood, daughter of Mayor and Mrs. John Thoroughgood, will pull box 311 at 7:15 sharp. The box has never been pulled, and it is desired to know how it will work.

Immediately after the patrol team reaches Mr. Smith's residence, Chief Spencer will turn in the first "4-4 call" which will summon the entire department to the Smith residence. This call has never been used, the rule that the whole department should not respond to all alarms, being but recently put in force.

PATROL WAGON IS REBUILT

It Will Go In Service After The Drill This Evening.

The fire patrol wagon will go into service again after the drill run this evening. The wagon has been rebuilt and repainted, and is as handsome as can be imagined. New wheels, somewhat higher than the old ones, and new axles have been put on. The new wheels make the wagon a little higher than it was, but the general form of the vehicle has not been changed. The ironing was done by John Doran, and the painting was done at the Wisconsin Carriage Top company's plant.

THE VETERANS WILL PICNIC

Plans for the Outing of the Rock County Association.

General order number 2 has been issued, relating to the annual reunion of the Rock County Soldiers' and Sailors' union, which will be held in Rogers' Grove, in the village of Milton Junction, Thursday, August 12. It is hoped that every ex-soldier and sailor of the late war, and his family, will be present and assist in maintaining the organization.

Rev. H. W. Thompson and other eloquent and pleasing speakers have been secured for the occasion. Col. E. O. Kimberley, "Wisconsin soldier singer," and a male quartette will furnish delightful patriotic songs, and the martial music will be furnished by an excellent drum corps. Impromptu speeches and army reminiscences will be an important feature. Local committees will be in attendance to look after the comfort of comrades and their families.

Do not fail to report at headquarters (which will be Odd Fellows Hall) and register upon your arrival. The Woman's Relief Corps will furnish dinner at reasonable rates. Comrades! Line up for roll call! Take a day off and renew old associations! A business meeting will be held at 11 o'clock a. m. Dinner at 12 m. The exercises will commence at 2 p. m. sharp.

The order is signed by W. J. McIntyre, president and L. B. Beebe, secretary.

—Louisville Courier-Journal.

A Slight Misunderstanding.
Mrs. Chatterington—Always cultivate a sympathetic character.

Mrs. Glumly—Yes; they're so useful to tell your troubles to.—Brooklyn Life.

It Indicates Trouble.
She—Do you regard love as a disease?

He—No; rather as a symptom.—Up-to-Date.

ANOTHER PIONEER

ANSWERS THE CALL

BERNHART SCHAFFNER DIES AT HANOVER

Came to America From Germany, and Had Resided in Rock County For Nearly Half a Century—Widow and Seven Children Survive—G. M. Chandler's Funeral.

Another of the hardy pioneers who helped to make Rock county what it is, has answered the call to the great beyond, in the person of Bernhard Schaffner, one of the well known farmers of the county. Mr. Schaffner died at his home at Hanover at 7:45 o'clock this morning, aged seventy-four years. Dropsy was the cause of his demise and he had been ill since Christmas.

Mr. Schaffner was a native of Rhinestadt, Germany, being born in that place in August, 1823. He came to America in 1852, and settled in Hanover in 1854. Since that time he had resided at that place. He was a man of many sterling qualities, and his death will be widely mourned.

A widow and seven children survive him, they being Will, Hattie and Peter of North Dakota; Carrie of Chicago, George and August who reside at the home, and Mrs. Charles Elder of this city.

The funeral will be held from Plymouth church, South Hanover, Friday morning at 10:30 o'clock. The interment will be made at Plymouth cemetery.

FUNERAL OF G. M. CHANDLER.

The funeral of the late George M. Chandler was held from the late residence in Johnstown Center, yesterday afternoon at 2 o'clock. Rev. Wallace McGowan, a native of Johnstown, who is preaching near Peoria, Ill., and is home on his vacation, conducted the services. The interment was in the cemetery at Johnstown Center, and the pallbearers were Volney Wood, John Haight, Robert Norton and Rush Beardsley. Rev. Mr. McGowan spoke feelingly of the dead pioneer. The funeral was very largely attended.

SAILER FEEDERS ARE IN USE

Alex. McGregor Is Showing One In Nebraska.

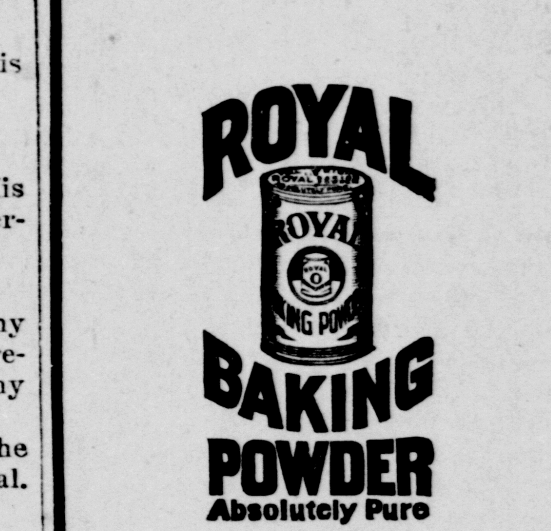

Alexander McGregor left last evening for Nebraska, where he goes to assume charge of one of the Sailer Manufacturing Co's feeder machines that are attached to threshing machines doing the work of four men in the handling of grain. The Sailer company are the sole manufacturers of these machines. They are now being tried in the wheat fields of the west. The local firm looks for a steady business this fall.

WEDDING BELLS RANG TODAY

Dexheimer-Mullen.

Beloit, July 28—[Special]—The marriage of Charles Dexheimer, of the firm of Dexheimer & Cole, barbers, and one of the most popular young men of this city, to Miss Sara E. Mullen, the winsome daughter of Mr. and Mrs. Jas. Mullen, was solemnized this morning at 7 o'clock at St. Thomas' church in the presence of several hundred friends. A reception will be held this evening at the new home of the happy couple on Central avenue.

Royal makes the food pure, wholesome and delicious.

"Royal is celebrated for its great leavening strength and healthfulness. Assures the food against all and all forms of adulteration common to the cheap brands."

virus, gonorrhea, veridigris or subacetate of copper; wax, vegetable or mineral; caustic potash, soda, lime, or other medicinal or pharmaceutical preparations.

Wearing apparel, articles of personal adornment, toilet articles, and all personal effects of persons arriving in the United States; but this exemption shall only include such articles as actually accompany them in their use and are necessary and appropriate for the wear and use of such persons for the immediate purposes of the journey and present convenience, and shall not extend to apply to merchandise intended for other persons or for sale; provided that in case of residents of the United States returning from abroad they may take with them all personal effects taken by them out of the United States to foreign countries shall be admitted free of duty without regard to whether such value has previously been established, under appropriate rules and regulations to be prescribed by the secretary of the treasury, but no more than \$100 in value.

Merchandise owned by such residents of the United States shall be admitted free of duty upon their return.

Wholesale, unmanufactured.

Wood.—Logs and round unmanufactured lumber, including pulp wood, firewood, bamboo, bolts, shingle bolts, gun bolts for muskets, and all turn or squared or planed on one side, hop poles, fence posts, ship timber and ship planking; all the foregoing not specially provided for in this act.

Woods.—Cedar, lignum vitae, lancewood, ebony, box, granadilla, mahogany, rosewood, satinwood and all forms of cabinet woods in the log, rough or bawn only; but not cut up into blocks or further advanced than cut into blocks suitable for the articles into which they are intended to be converted, nor into veneers, parquets, mahoatan joints and sticks of partridge, hair wood, pimento, orange, myrtle and other woods not specially provided for in this act, but rough or bawn only, and not advanced than cut into lengths suitable for blanks for umbrellas, parasols, sunshades, whips, fishing rods or walking canes.

Works of art.—Engravings, photographs, photographic pictures and philosophical and scientific apparatus brought by professional artists, lecturers or scientists for exhibition, sale, or otherwise, in connection with temporary or permanent exhibitions, or for advertisement, promotion and encouragement of art, science or industry in the United States, shall not for sale, be admitted free of duty.

Works of art, collections in illustration of the progress of the arts, sciences or manufactures, engravings, photographs, works in terra cotta, pottery, marble, paper, metal, wood, painting, and artistic copies thereof in metal or other material, imported in good faith for permanent exhibition at a fixed place established by law, or for advertisement or illustration established for the encouragement of the arts, sciences or education, or for a municipal corporation, and all like articles, books, maps, prints, or drawings, or association or for a municipal corporation for the purpose of erecting a public monument and not intended for sale nor exportation, or other purpose than herein expressed.

"IT MAKES ME HUNGRY"

just to look at your store; everything is so nice and clean." We are proud of such words as those from our customers, and try to deserve them. Not a shelf in our store but is emptied once a week and carefully wiped --the shelf and everything on it. We began doing this so we could keep things looking nice and clean, but we find the arrangement a great help in keeping them nice and clean and fresh and tempting. Those words do add to the money value of things good to eat, don't they? But you will not find our prices any higher for the extra care we take. We get our advantage in the increase of trade.
